Free Way

TRAFFIC LANE CARPET CLEANER

DESCRIPTION:

A soil release and emulsifier for traffic lanes and heavy soiled carpets. Powerful pre-spray reduces over wetting and over scrubbing.

WHAT DOES IT DO?

FREE WAY'S penetrating solvents and high pH create fast wetting action to eliminate time consuming scrubbing of traffic lanes and stains. It accelerates cleaning power, saves cleaning solution and results in more uniform and effective cleaning. FREE WAY is ideal for breaking down impacted traffic lane dirt, grease, wax, beverage stains, cosmetics, food spots, medicinal stains, etc. from both natural and synthetic fibers. Use alone, as a direct spray on traffic lane and other soil build up areas, or as a booster for rotary and extraction methods.

WHY IS IT USED?

FREE WAY is a commercial carpet cleaner's first line of attack to break the surface tension of oil and grease that traps dirt in carpets and resists penetration of even the finest detergent. FREEWAY accelerates the entire cleaning operation because of its emulsification properties. It causes a gentle chemical reaction to occur that loosens soil and light grease so they are easily removed during shampooing.

HOW IS IT USED?

1. Shake container gently to thoroughly mix contents. Mix 1 part FREE WAY to 4 parts water.
2. Pour solution into sprayer.
3. Adjust sprayer nozzle for mist. Apply FREE WAY to areas in need of pre-clean treatment to moisten carpet fiber tips. TAKE CARE NOT TO SATURATE.
4. Allow FREE WAY to set about 10 minutes, apply another light mist. Then follow with carpet extractor or shampooing machine.

PACKAGING:

This product is available in 4- 1 gallon case.
