Fibercare

SOIL RETARDANT – CARPET AND UPHOLSTERY DETERGENT

DESCRIPTION:

Soil Retardant – Anti-Static – Fast Drying – Foam Carpet Shampoo.

WHAT DOES IT DO?

Leaves carpets, upholstery, rugs clean smelling with four brighteners that will guarantee colors are brighter, patterns more defined. Depending on circumstances, dries fast from 2-6 hours. Goes to base of the carpet safely. Raises carpet nap, no residual powder to vacuum up.

WHY IS IT USED?

To safely and quickly clean carpets and upholstery. Prevents matting. FIBERCARE is a combination of both dry and wet chemical systems perfect for interim cleaning. The dry cleaning solvents help speed removal of the moisture, while attacking attached and imbedded grease and oil trapped soil.

HOW IS IT USED?

Carpet Cleaning:

1. Remove furniture and dry vacuum carpet.
2. Place aluminum foil or other protective material under metal feet of stationary furniture to prevent possible rust or stains.
3. For Rotary-type machines & Bonnet Method: Add 1 part FIBERCARE to 26 parts water in plastic bucket and add to shampoo tank.
For Foam-type machines: Add 1 part FIBERCARE to 20 parts water in plastic bucket and add to shampoo tank.
4. Shampoo carpet in normal manner.
5. Brush pile in one direction for proper drying. Allow to dry thoroughly.

Upholstery Cleaning:

1. Vacuum or brush upholstery.
2. Add 1 part FIBERCARE to 25 parts water.
3. Test fabric for color-fastness in small hidden area. Use only on color-fast fabrics.
4. Not recommended for satins or silks.

PACKAGING:

This product is available in 1 gallon and 5 gallon containers.
