

Solutions for a Cleaner Environment

MATTING OPTIONS

Did you know that utilizing 10'-15' of entrance matting can capture up to 85%-95% of contaminants from entering the building? Mats are your building's first defense against dirt and moisture. In addition to protecting your floor from damage and wear, mats also filter contaminants from entering your facility which could potentially save you thousands of dollars a year in cleaning costs!

ALCO is a distributor of M & A Matting, formerly known as Andersen Matting. Contact us today to discuss your matting needs! Additional sizes and colors available.
