Rapid Rinse

RINSE AGENT

DESCRIPTION:

RAPID RINSE, with a pH of 7-8, is a concentrated and effective liquid rinse additive and drying agent that eliminates all water spots and streaks from glasses, dishes, silverware and utensils. A non-ionic surface agent, it reduces surface tension to speed drainage and provides positive aid to sanitation. Recommended for low temperature dishmachines.

BENEFITS:

- Eliminates all water spots and streaks
- Induces rapid and efficient drying
- Wipes out need for toweling
- Designed for all types of rinse injection units

DIRECTIONS:

For other quick drying applications, where foam cannot be tolerated, use one teaspoon of RAPID RINSE in four gallons of hot water. Submerge utensils for 5-10 seconds, and then allow to air dry.

PACKAGING:

RAPID RINSE is available in 4-1 gallon/cases and 5 gallon pails.
