

## #0442

# Stampede

OPTIMUM GLOSS & RESISTANCE TO WEAR

### DESCRIPTION:

A group of modified polymers engineered by a polymerization procedure which provides the ultimate product in water-based floor finishes for shine and durability. STAMPEDE provides thermoplastic action when burnished at ultra-high speeds.

### WHERE IS IT USED?

STAMPEDE is for all resilient floors:

- Vinyl
- Asphalt
- Tile
- Vinyl Asbestos
- Concrete
- Marble
- Rubber
- Linoleum
- Terrazzo

### HOW IS IT USED?

1. FLOOR PREPARATION: For best results, floor should be stripped of all old finishes before applying #0442 STAMPEDE.
  - a. Use floor stripper #0166 HYPER STRIP, #0168 MELTDOWN or #0169 BREAKAWAY in hot water for best results.
  - b. Machine scrub with black stripping pad.
  - c. Pick up old finish with wet vacuum.
  - d. Immediately rinse floor with neutralizer and follow with 2 fresh water rinses.
2. APPLICATION: Use only new wax mops (soaked in cold water) with clean buckets/wringers.
  - a. Use medium to thin coats, applied evenly.
    - i. If the floor is an old, worn, porous floor, seal floor with #0475 SEAL KOTE before applying finish.
  - b. Apply 4-5 coats of STAMPEDE. Allow 45 minutes dry time between coats.
    - i. In extremely humid weather conditions, it is recommended that a dry time of 2 hours or more be allowed to avoid tearing the finish.

**Coverage is 1,500-2,500 square feet per gallon.**

## **Maintenance**

1. DUST MOP DAILY.
2. DAMP MOP THE FLOOR – STAMPEDE can be damp mopped with #0185 MAGNIFICENT SEVEN or machine scrubbed with #0199 G-P CONCENTRATE or any of Alco's neutral disinfectants (like DC-7 or WINTAFECT).
3. SPRAY AND DRY BUFFING – STAMPEDE can be buffed for removal of scuffs and traffic marks. For light soil areas, dry buffing is sufficient; for areas such as entrances and stairways, use #0191 BEYOND spray solution.

## **PACKAGING:**

This product is available in single gallons, 4- 1 gallon/cases, 5 gallon pails, and 55 gallon drums.
