

## Elevated Expectation of Clean

- COVID-19 pandemic has changed the cleaning landscape
  - Spike in demand for disinfecting solutions
  - Anticipate ongoing, elevated focus on level of clean and preparedness
- Disinfecting is not new, frequency and new users will increase

## What if there was a better way to disinfect?

- Seeking fast, efficient means to apply disinfectant to various surfaces
- Ability to disinfect both large and small areas
  - Warehouses, big box stores, office buildings, schools, hospitals, hotels, restaurants, public transit, etc.
- Portability is critical, use cases drive need for different solutions
  - Compact, lower capacity
  - Full-size, higher capacity
- Growing concerns over misting and fogging
  - Lack of chemical actually contacting surfaces
  - Aerosolization of chemical dangerous (operator and patrons)
- This is an alternative option to an electrostatic sprayer for applying disinfectant

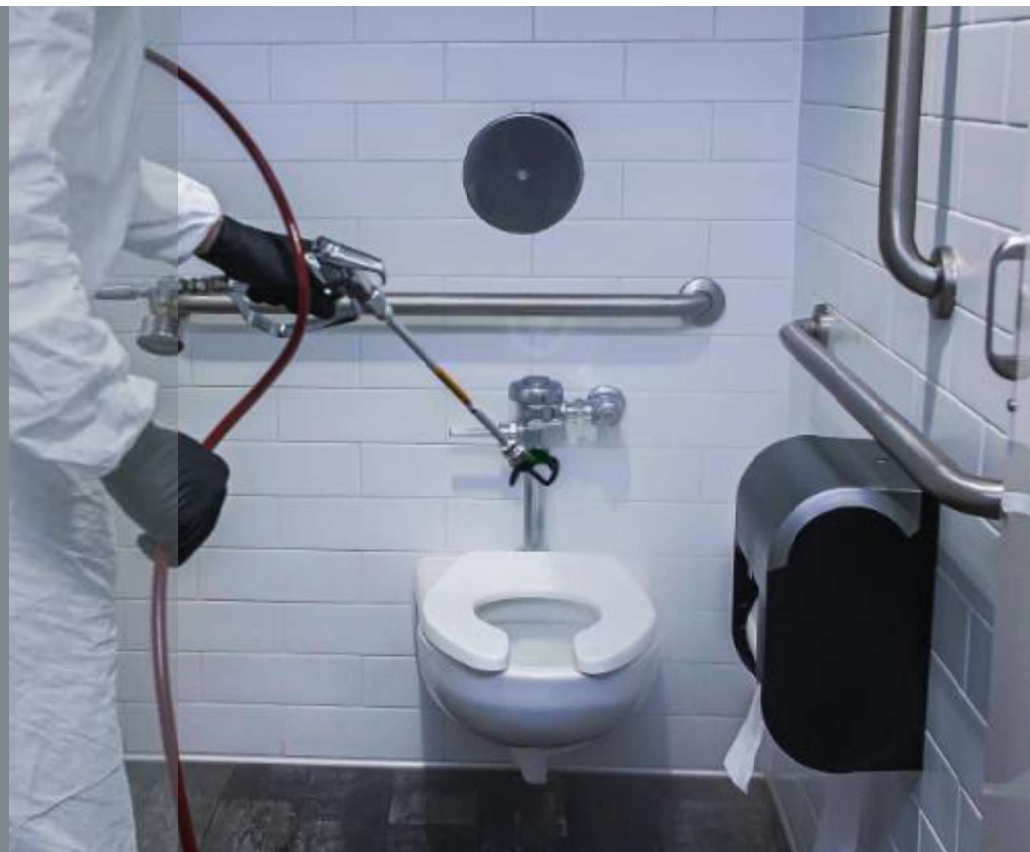

- With ALCO you get: A special disinfecting tip that is not included with all Titan sprayers in the marketplace - **See page 10 for details!**
- Titan is the leading manufacturer of spray equipment throughout the Americas, globally parent company, Wagner
- Titan provides application equipment to almost all facets of the economy
- Call your ALCO rep or customer service to ask questions or order your Titan Sprayer

## Airless Spraying Technology

- Provide fast, efficient method of applying disinfectant
- Larger particles coat surfaces to help achieve desired dwell times
- Product offerings to disinfect both large and small areas
- Portable to meet varying use cases
- Pump moves the chemical, Tip controls spray attributes

## Offering 3 Disinfecting Solutions

### FlexSpray Handheld

- Small Area ( $\leq 10,000$  sq ft)
- .20 gal/min
- On-Board Chemical
- 1 Qt Capacity
- 20 ft power cord

### Impact 410 Skid

- Large Area (30,000 sq ft /hr)
- .12 gal/min (with 413 tip)
- Off-Board Chemical
- Pumps from 5 gal bucket
- 50 ft hose std, up to 300 ft

### Impact 410 High Rise

- Large Area (30,000 sq ft /hr)
- .12 gal/min (with 413 tip)
- Off-Board Chemical
- Pumps from 5 gal bucket
- 50 ft hose std, up to 300 ft
- Cart with wheels

## FlexSpray Handheld

- Small Area ( $\leq 10,000$  sq ft)
- .20 gal/min
- On-Board Chemical (1 Qt Capacity)
  - About 1,000 sq ft of spraying
- Package Includes:
  - FlexSpray Handheld
  - 1 Qt Container
  - 20 ft Power Cord
  - Carrying Case

## Impact 410 Skid

- Large Area (30,000 sq ft /hr)
- .12 gal/min (with 413 tip)
- Off-Board Chemical
- Pumps from 5 gal bucket
- 50 ft hose standard, couple up to 300 ft
- Package Includes:
  - Impact 410 Skid
  - Spray Gun
    - Qty 2 of 413 Green HEA Tip (disinfecting)
    - Includes 410 Red Tip, replace with 413 green
    - Tip Guard
    - Piston Lube (8oz)
  - 50 ft Hose

## Impact 410 High Rider

- Large Area (30,000 sq ft /hr)
- .12 gal/min (with 413 tip)
- Off-Board Chemical
- Pumps from 5 gal bucket
- 50 ft hose standard, couple up to 300 ft
- Package Includes:
  - Impact 410 High Rider (cart with wheels)
  - Spray Gun
    - Qty 2 of 413 Green HEA Tip
    - Includes 410 Red Tip, replace with 413 green
    - Tip Guard
    - Piston Lube (8oz)
  - 50 ft Hose

## HEA Tip Technology

- High Efficiency Airless (HEA)
- Allows for low pressure atomization that minimizes overspray and billowing clouds
- Creates larger droplet size for better transfer efficiency and 'wetting' of substrates
- 413 Tip (recommended)
  - Provides 8 inch spray pattern (1 ft away)
  - Typical disinfecting spray distance is 2-3 ft
    - Will provide 16 or 24 inch spray pattern
  - Flow rate of .21 gal/min

**HEA** | HIGH EFFICIENCY  
AIRLESS™

## Use & Care Considerations

- Wear PPE as recommended by local authorities during sprayer use
- Purge machine with water after each use ensuring the pump, hose and gun are cleared of disinfectant
  - Follow same process should sprayer sit idle for longer than 30 minutes
- Disinfect the machine and all accessory components after each use
- Lubricate piston weekly

## Compared to Other Disinfecting Technology

- Foggers
  - Cause chemical to be suspended in air for long periods of time
  - Difficult to direct chemical to a surface

## Purchasing Your Titan with ALCO

- Warranty Information
  - 4 Yr. Manufacturer Warranty Against Defects
  - Limited Lifetime Warranty on Motor (Impact 410)
  - 2 Yr. on Turbine (FlexSpray)
- Interested in a demo?
  - We'd love to show you!
  - Contact your ALCO rep to request a demo
