# Grime Buster

## DEGREASER & EMULSIFIER

Our most powerful degreaser and emulsifier, fortified with citrus turpene, is for industrial and institutional use. GRIME BUSTER is water soluble, non-flammable, and biodegradable. This powerful degreaser works where others fail. GRIME BUSTER is formulated with thirteen different ingredients for extremely tough jobs that require strength.

### WHAT DOES IT DO?

Designed for tough jobs, GRIME BUSTER instantly dissolves and emulsifies heavy grease, carbon deposits, rubber burns, soap scum, oxidized waxes, oil, ink, and dirt accumulations. Its low sudsing actions makes it perfect for automatic scrubbers or pressure washers. This versatile product can be used for everything from light floor cleaning to heavy duty machinery cleaning. Its superior grease and soil penetration and retention allow it to be used economically. May also be used for dip tank degreasing and corrosion protection. The uses for this product are endless.

### WHY IS IT USED?

Heavy duty cleaning often results in harm to the surface cleaned. GRIME BUSTER solves this problem by incorporating heavy duty cleaning agents and a solvent, safe to most surfaces requiring this type of cleaning. NO ABRASIVES – which before GRIME BUSTER was the only way other than the use of harmful solvents that such cleaning could be done. Because it is diluted with water almost any degree of heavy duty cleaning with relative safety to the surface can be done with GRIME BUSTER.

### HOW IS IT USED?

**DIRECTIONS** – Concrete, Hard Floors, Walls

**EXTRA HEAVY DEPOSITS:** Use straight or dilute 50-50 with water.

**NORMAL DEPOSITS:** Dilute 1 part with 5-10 parts water.

*Spray, brush, mop on surface:* Get it extra wet. Agitate with floor machine, stiff brush or wire brush. Keep surface wet during agitation period. Rinse with clean water, low or high pressure, hot or cold. Porous surfaces may require a second application and rinse.

*Engines, metal stock, airplanes, flues, machinery, aluminum, motors, conveyors, air conditioning ducts and grills, air filters and refrigerators:* Use straight or diluted, depending on degree of soil.

**DEGREASING:**

*Kitchen Grease:* 1 part per 7 parts water will remove heavy concentrations of grease from cupboards, walls and ceilings. Rinse and wipe dry. Wear rubber gloves for sensitive skin.

*Heavy Kitchen Grease:* 1 part per 4 parts water to degrease and clean areas such as ducts and grills.

**PACKAGING:**

GRIME BUSTER is available in 1 gallon, 5 gallon, 30 gallon, 55 gallon and 275 gallon containers.
