

Solutions for a Cleaner Environment

MICROFIBER

ALCO carries a wide variety of microfiber mops and tools for any job. Cotton blended and other synthetic yarns have basically one cleaning surface per fiber. Microfibers have thousands making them extremely efficient, super absorbent, versatile, highly launderable and resistant to cross-contamination.

Microfiber removes up to 4x more dirt and bacteria compared to conventional products!

Microfiber Cloths

UNGMF40Y	YELLOW MICROWIPE™ CLOTH
I3140	BLUE CLEANING CLOTH
3141	GREEN DUST/CLEAN
MIC40-03	RED RESTROOM/BIOHAZARD

Microfiber Cleaning Tools

MF-ACH-11	11" WHITE WALL WASH
TU-FF20FR	HIGH DUSTER FLAT FLEX FRAME
TU-FF20MOPP	20" WHITE HIGH DUSTER SLEEVE

Microfiber Velcro Wet Mops (Akron)

MIC01-12	12" BLUE DAMP PAD*
MIC01-18	18" BLUE DAMP PAD*
MIC01-24	24" BLUE DAMP PAD*
MIC06-18	18" STRIPED SCRUBBING PAD

**Blue pad great for finish applications!*

Microfiber Velcro Dust Pads (Akron)

MIC02-18	18" GREEN DUST PAD
MIC02-24	24" GREEN DUST PAD

Frames & Handles for Velcro Mops (Akron)

MIC50-18	18" PAD HOLDER ALUM FRAME
MIC50-24	24" PAD HOLDER ALUM FRAME
MIC55-01	72" ALUM EXTENSION HANDLE

MICROFIBER

What are the benefits to the cleaning industry?

Cleaning products produced using microfiber materials realize these many benefits.

Cleaning Benefits include:

- **Highly efficient** – removes four times more dirt and bacteria with less time and effort than conventional cotton products.
- **Super absorbent** – 200,000 fibers per square inches that hold over seven times their weight in water.
- **Effective cleaning** – removes over 99% of all bacteria with only tap water compared to 30% with conventional wet mops.
- **Versatile** – effective wet or dry, on porous or non-porous surfaces.
- **Highly launderable** – withstands numerous launderings , and can always be clean and ready to go.
- **Lightweight and ergonomic** – compact, easy to use, reduces heavy lifting and awkward positioning.
- **Resists Cross Contamination** – Virtual elimination of cross contamination – no messy buckets and contaminated solutions to be dealt with.
- **Less bulk** – can be easily stored compared to conventional cotton/blended products.

Cost Benefits include:

- **Economical** – super results are gained with reductions in hazardous chemical cleaners and water usage up to 95%.
- **Reduced cleaning times** – lower labor costs due to less wringing and cleaning during use.
- **Reduced drying time** – microfiber dries in 1/3 the time of ordinary textile products.
- **Durable** – withstands up to 200* launderings for a 60% life-cycle cost savings over conventional textile cleaning products.

*When laundered in time and temperature controlled operations, individual products will vary.

Microfiber Mops Last 3 Times Longer Than Conventional Blended Wet Mops.
