

Solutions for a Cleaner Environment

TB-QUAT USAGE:

Key Notes:

- **READY TO USE:** Tuberculocidal disinfectant, cleaner, virucidal, fungicidal, mildewstat & deodorant
- **HIGH TOUCH AREAS:** Use as a spray disinfectant on hard, nonporous high touch areas - i.e. tables, chairs, light switches, door knobs etc.

TB-Quat is EPA Approved for use against COVID-19, & has the EPA Emerging Viral Pathogen Claim, meaning it has demonstrated efficacy against a harder-to-kill virus than the enveloped human coronavirus*

EPA Registration #: 1839-83-34714

General Use Directions:

SEE LABEL BEFORE USE FOR COMPLETE, DETAILED INSTRUCTIONS

- Pre-clean hard, non-porous surfaces
- Hold container six to eight inches from surface to be treated and spray area until it is covered with the solution
- Allow product to penetrate and the surface to remain wet for appropriate amount of time - dwell times are listed on the label and range from 30 seconds to 10 minutes depending on the bacteria or virus you are trying to kill
- Wipe off with a clean cloth, mop or sponge

TB-Quat is registered with the U.S. Environmental Protection Agency (EPA)

DISINFECTION & VIRUCIDAL PERFORMANCE: See label for dwell times.

TB-Quat kills the following (see Efficacy Sheet for full list):

- | | | |
|--------------------------------------|----------------------|-------------------------|
